Instead of copying Casmis letter, here it is, together with the single enclosure. Then you have copied or read, please return.

Does his letter suggest anything to you? My abover (extra copy for you to keep if you desire is enclosed also.

Let me know which of the things he asks if he sent we do not have and I'll ask him for them.

He has been telking about the MSRP for a while. I've not taken the time to copy the documents he wants because they'd mean nothing to kim. Where I sent him a single one, he did a foolish thing, writing the subject.
